

TRAILER PARK CONDITIONS BRITISH STEEL SCUNTHORPE

Issue – Excessive waste, such as Rubber Matting and Plastic Edge Protection, being discarded on the Trailer Parks. The bulk of this is due to drivers **NOT following the Dropping Off procedures/ Induction information** and leaving the items at the trailer door area. British Steel have been carrying out an extensive clean up program recently in the trailer parks and will not tolerate this practise any longer. The items are not required for their loads so, if the items need to stay with the trailer then, **ensure drivers follow instructions or provide a box for the items to be stored in prior to arrival.**

YOU WOULD NOT ACCEPT THIS AT YOUR PARKING AREAS!

ANY TRAILER FOUND NOT LEFT CORRECTLY WILL HAVE THESE ITEMS DEEMED AS WASTE AND DISPOSED OF ACCORDINGLY!
